

Summer Newsletter

Back to School

This summer will mark the successful completion of Phase Two of our installation project at Lister School in Newham, East London in time for the start of the 2011/2012 Academic Year.

As a company Select Fire Services have carried out all the design and installation of Fire Protection Systems during both Phase One and Two of the project in collaboration with Cofely Engineering.

We wish the school every success in the future

New Service & Maintenance Department Manager.

As advised in our last Newsletter we now have a new Service Manager Bill Watts who has now settled in and has completed the upgrade of our Service Database which is now running smoothly. Bill can be contacted by e-mail on bill@selectfire.co.uk should you have any queries

POSITIVE RESULTS FOR SMALL WORKS

Given the current financial climate of the country we are pleased to have had a very busy last year in our small works department who have been constantly busy carrying out sprinkler modifications to sites of all shapes and sizes, and have achieved many positive client feedbacks so a big pat on the back for our

Contracts Manger Trumayne and his team.

Speedy Start for Select Fire

We are pleased to report that the recently sponsored Select Fire car pictured below has been achieving really good results. Ashley Sutton chose to enter the highly competitive Formula Vee category and surprised many series regulars by slotting in at the sharp end of the grid straight away. It only took Sutton five races to hit winning form and he comfortably took the series' Rookie Cup award. Had he not missed both Cadwell Park races after an engine failure during testing he could have been a genuine title contender"

..And no Foul Play

We have also sponsored a 5 a side football team of Select Fire staff, who are currently sitting at 3rd place in the league with high hopes of achieving higher by the end of the season.
